

Yoshi Nintendocore Beaded Earrings Pattern

- 6lb Fireline thread for brick stitch and K.O. nylon thread for fringe
- 15/0 seed beads (color palette is on the left)
- A mix of crystals, star beads and other fun stuff if you want to do a confetti fringe.

TIPS:

Design uses **brick**, **square stitch**, and **fringe**. So keep an eye out for those changes! I have marked where they are so it's easier to figure out.

The square stitch portion is divided into 4 separate blocks. I tried to do it all together and got some bad warping. Dividing it into chunks helped a lot.

When we weave brick or square stitch, we're basically making a beaded fabric. When the fabric is this large it will curl or flop if you don't reinforce it. To reinforce the square stitch I weave back through the completed square stitch (with fireline string, before you do the fringe) in long diagonals until it is solid! But be careful because 15/0s are easy to break if you make too many passes.

To make the 3D clouds I followed a tutorial from BeadingbyHannah on youtube.

Refer to images of the completed earrings if you have questions, or leave a comment and I will get back to you!

TERMS OF USE:

You are welcome to use this pattern for personal or commercial purposes. You are also welcome to modify it. I only request that you:

#1) Give me some credit (mortalfemale) and link to this website: mortalfemale.com or my instagram @mortalfemale.

#2) Send or tag me in a picture of your finished work. ENJOY!

Disclaimer: I don't own Yoshi. Nintendo does. This pattern is an artwork falls under Fair Use.
